### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 and 5-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP 57-132051 in view of JP 4-15122.

JP 57-132051 shows a variable compression ratio engine comprising and axially shiftable cylinder block. However, the manner in which the engine is mounted to a vehicle is not set forth. JP 4-15122 shows in figure 3 mounts 40, one for the crankcase 36 and the other for the transmission 39. It would have been obvious to one of ordinary skill in the art to mount the engine of JP'051 in the manner taught by JP'122 since none other is taught, even in a FWD vehicle. In regard to claims 5 and 6, the language is so functionally descriptive as to be met by any mount arrangement. In claim 9, "lies within a predetermined range" is so broad as to be met by JP'122.

***Response to Arguments***

Applicant's arguments filed 12/20/07 have been fully considered but they are not persuasive. The applicants argue that figure 3 in JP'122 is prior art and inferior to the improved configuration, Hence teaches away from a crankcase mount.

The examiner contends that the entirety of any reference may be relied upon to teach any feature, including prior art. The examiner maintains the position that because JP'051 is

silent as to how it is mounted, one of ordinary skill in the art would be led to use any one of the arrangements in JP'122, including figure 3.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Noah Kamen whose telephone number is 571 272 4845. The examiner can normally be reached on M-Th 6:30-5:00.
